# Solix Reinvents Data Archiving in the Cloud with SOLIXCloud Enterprise Archiving

*SOLIXCloud Enterprise Archiving enables application retirement and archiving for databases, file servers, and email with a secure, low cost, pay-as-you-go service.*

June 13, 2019 — Santa Clara, Calif. — Solix Technologies, Inc. (www.solix.com), a leading big data application provider for empowering data-driven enterprises, today announced SOLIXCloud Enterprise Archiving, software-as-a-service for data archiving built on Microsoft Azure. The service is available today at https://cloud.solix.com/.

SOLIXCloud is built on Solix's award-winning big data application framework, the Solix Common Data Platform (CDP). SOLIXCloud enables enterprises to archive databases, file servers, and email as well as decommission and retire legacy application data to the cloud. The monthly service relieves the pressure of data growth on enterprise applications and provides infrastructure optimization, reporting, analytics, and low cost bulk data storage.

Join senior executives from Solix, IBM, Microsoft, Deloitte, Emagia, JP Morgan Chase, SAP, Chevron, Manageserv, Scientific Games, NTT Data, Digidebb Consulting and others in a discussion on digital transformation with SAP. Click here to request an invitation.

The archiving-as-a-service solution is hosted on the Azure platform providing a reliable, scalable, elastic, secure, and compliant data management solution for all enterprise data.

**Key features of SOLIXCloud Enterprise Archiving on Azure include:**

- Support for databases, file servers, email, and application retirement
- Elastic, pay-as-you-go pricing model
- Information Lifecycle Management (ILM)
- Retention Management & Legal Hold
- Data Governance & Auditing
- Metadata management
- Robust data discovery: Text Search, Query, Forms, Reports, File Explorer, and more
- API Access
- 24/7 support
- Backed by Solix's professional services

**Why should enterprises consider SOLIXCloud?**

- Easy to use, archive-as-a-service process
- Low cost, bulk data storage
- Improved security and compliance
- Fast and agile
- Geographic distribution and availability
- Analytics ready

*"Many companies are relying on the cloud as a next-generation data management platform to support their business operations, and we saw the opportunity to fill a massive need,"* said **Sai Gundavelli, CEO/Founder, Solix Technologies, Inc.** *"We are excited to work with Microsoft and the Azure platform to help our vision of enterprise archiving as-a-service come to reality."*

*"SOLIXCloud is transforming the data lake with cloud-based archiving and backup, giving CXOs the peace of mind to operate next-generation enterprise applications, reliably,"* said **Holger Mueller, Vice President and Principal Analyst, Constellation Research, Inc.**

*"Information archiving is now available as a service for public cloud users,"* said **Paul Maher, Partner, General Manager – Industry Experiences at Microsoft.** *"SOLIXCloud is a tool for organizations looking to archive their data and applications at scale.*
